

# how to find your dedicated tree

## Dutton Park by Dutton, Cheshire

59.51ha (147.05 acres)  
OS Landranger 117, Explorer 267  
Grid reference: SJ583767  
Ancient Semi-Natural Woodland,  
Newly Planted Woodland

Access into the north eastern corner crosses a meadow (outside our site boundary) and leaves either by a bridge eastwards or by a path westwards in front of Pickerings Cottage. Please note local parking is not permitted.

To best access this site on foot, park at the Leigh Arms pub, cross under the road bridge and walk along the river towards Dutton Locks. Just past the locks, cross over the footbridge to enter Dutton Park, then turn left and walk 800m along the River Weaver passing underneath Dutton viaduct. On the right hand side you will see a stile. Go over the stile and walk 300m up the path and on the left hand side you will see where your dedicated tree(s) is/are located.

For advice on travel by public transport, contact the national helpline on 0871 200 2233.

More information about this wood can be found on the Woodland Trust website: [woodlandtrust.org.uk/ourwoods](http://woodlandtrust.org.uk/ourwoods)

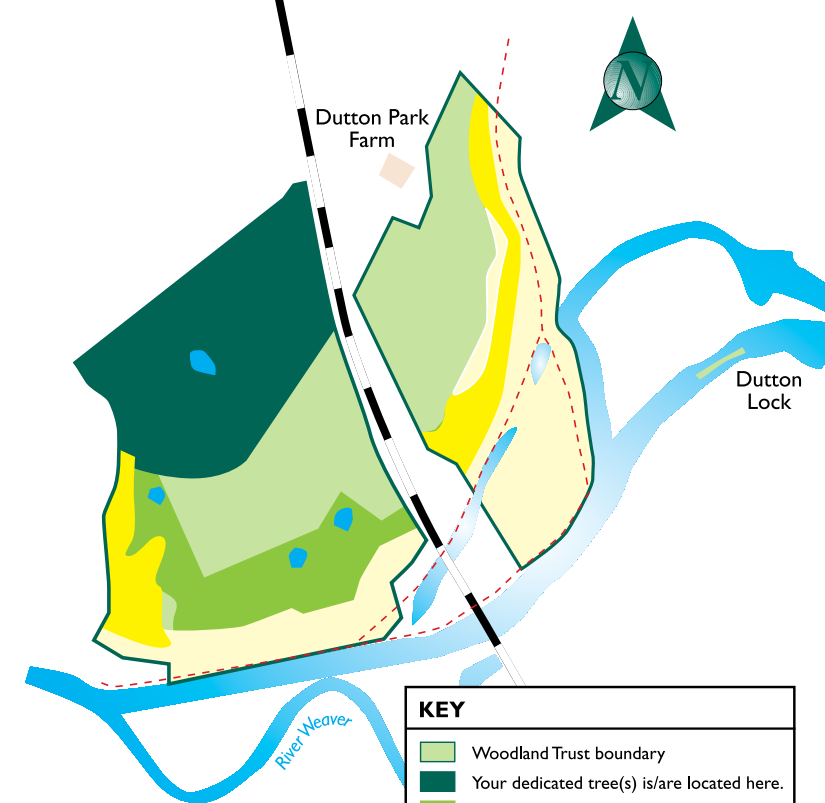

**Call us on our Freephone Number 0800 026 9650 for further information about tree and woodland dedications, or for membership details and general information on the work of the Woodland Trust.**

Dutton Park is a mosaic of open grassland, ponds, ancient semi-natural woodland and newly planted native woodland adjacent to the River Weaver. The split-level site rises from the grassed areas by the River Weaver through a wooded scarp slope to flat land beyond.

The site is crossed by the Dutton Viaduct, a 22-arch railway viaduct built in the 1830s as part of the Grand Junction Railway and bordered in part by the historic Weaver Navigation. Birds such as buzzards, herons, woodpeckers and peregrine falcons regularly visit the area as well as hares, and even otters have passed along the river.

The wood was acquired in 2006 as part of the 'Tree for All' project which saw one million children plant 12 million trees over five years. In 2006 we planted over 20,000 trees, whilst in 2007 we planted 1,400 trees and tree-seeded 2.75 ha, and in 2008 we planted a further 5,900 broadleaf trees and shrubs. Species include oak, silver birch, ash, rowan, hawthorn, blackthorn and dog rose.

Dutton Park lies just east of Frodsham and is situated between Dutton and Acton Bridge, adjacent to the River Weaver in the Weaver Valley. Access is available via various bridleways. The routes run along the eastern and the southern edge of the site.
